

## **INTERNATIONAL PROJECT ENGINEER AZIMUT 360**

Azimut 360 SCCL is a non-profit cooperative born from the commitment to cover energy needs through a sustainable and respectful model with the environment.

We are an engineering company specialized in the development and execution of renewable energy projects, both in terms of generation and distribution and consumption management. The Azimut 360 team has more than 15 years of accumulated experience in the renewable energy sector and has participated in emblematic and reference projects in the solar energy sector, both in the field of grid-connected photovoltaic installations and in autonomous rural electrification systems, both nationally and internationally.

For more information see [www.azimut360.coop](http://www.azimut360.coop).

### **JOB DESCRIPTION:**

We are carrying out a selection process to incorporate into the Azimut 360 team a person with a technical profile who will be dedicated mainly to the [area of international facilities of Azimut 360](#).

Its tasks will mainly include:

- Collaboration in the elaboration of commercial offers
- Project implementation management
- Depending on the capacity and availability of the candidate, performing technical tasks of the projects

The person selected will depend on the person in charge of the international facilities area of Azimut 360.

The base place of work will be in Barcelona, with trips to the countries of the projects when necessary.

### **COMPETENCES:**

The minimum competences that candidates are required to meet are the following:

- Degree in Engineering related to energy or electricity or Master in these areas.
- Minimum experience of 2 years in project management.
- A good command of English and French, written and spoken, is necessary.
- Experience in international projects in non-European countries will be valued.
- Experience working in European projects or multilateral funders will be valued.

On the other hand, the selected person must be flexible and proactive, and have good communication and coordination skills with other people in the Azimut 360 team, as well as with the rest of the project partners.

**CONDITIONS:**

The conditions we offer for the job described are as follows:

- Immediate onboarding
- Indefinite contract with trial period of 6 months
- Working day of 35 hours per week, in the schedule agreed with the Azimut 360 team
- Salary according to the salary scale of Azimut 360
- Good working environment, support of Azimut 360 technicians with extensive experience in the drafting and coordination of renewable energy projects, both locally and internationally.
- Possibility of joining as a member of the cooperative in the medium term.

**REQUIRED DOCUMENTATION:**

We would appreciate it if you could send us a CV and a motivation letter to the [rrhh@azimut360.coop](mailto:rrhh@azimut360.coop) email, indicating in the title "OFFER ENGINEER / A OF INTERNATIONAL PROJECTS A360".

Thanks a lot

The Azimut 360 Team
